**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I used to be AT&T customer for many years but the internet service was so bad that my children had to go to our relative home to use their internet to do homeworks.

I work full time and I had to drive my children to somewhere else after work to do their homeworks until pass mid-night until one day I heard about Sonic Co. once we got their service, the internet has been great - fast and no interruption.

I live in an apartment building and the wire is too old according to AT&T service man. They said there is nothing they can do because their system/wire were fine.

Sonic system does not connect to the building's wire. It runs directly from their wire to my apartment and that how it works so well for me.

My children and I are so glad to have Sonic service. Please consider broadband competition and support people like us who need good internet for personal use at home.
